Prerequisites

ART 157.

Course Description

Provides advanced, individualized development in metal arts. Develop a unique project or series. Provides opportunity for in-depth concept, research, development, and final presentation of long-term project. Repeatable for credit.

Course learning outcomes

1. Create a portfolio-quality final piece or series.
2. Write a concept statement for the project.
3. Prepare project for exhibition.
4. Use media-specific terminology when receiving and providing feedback.

Content outline

1. Concept and timeline for project
2. Project research, references, and materials
3. Present work in progress to class and instructor for feedback throughout the term
4. Prepare finished project for exhibition (concept statement, displays, etc.) depending on type of metal arts
5. Final presentation of project to class
6. Constructive critique: receiving and giving feedback between instructor and classmates

Required materials

Students will need to provide specific materials used in this course; please see the syllabus for a detailed list.
