APR 264.

Course Description

This advanced course is the culmination of the Plumbing Code and Test Preparation series, designed to fully prepare registered apprentices for the Oregon Building Codes Journeyman Plumbing exam. Students will refine their mastery of the Uniform Plumbing Code, focusing on high-level troubleshooting, installation techniques, and comprehensive code compliance. Through in-depth theoretical learning and rigorous practical exercises, learners will gain the expertise and confidence necessary to excel on the exam and meet the demands of professional plumbing work.

Course learning outcomes

1. Master the comprehensive application of the Uniform Plumbing Code, including specialized systems.
2. Demonstrate expert-level troubleshooting and installation techniques for advanced plumbing scenarios.
3. Solve complex compliance issues while adhering to the highest safety and industry standards.
4. Exhibit readiness and confidence to excel in the Oregon Building Codes Journeyman Plumbing exam.
