Recommended preparation

ART 157B1.

Description

Builds the skills learned in ART 157B1 with more challenging project assignments. Students will develop technical skills by designing projects, which include simple forming techniques, moving parts, incorporating found objects and/or stone settings.

Learning outcomes

1. Learn the basics of metal construction using what are called cold connections.
2. Gain a basic knowledge of working with metal using hand tools.
3. Learn to work safely in a group studio with metalsmithing tools and equipment.
4. Learn proper metal finishing procedures.
