Lab hours

32

Prerequisites with concurrency

AV 110 (or Private Pilot Certificate), AV 222A, AV 222B, AV 222C, and instructor approval based on proof of valid Second Class (or higher) Medical Certificate.

Course Description

Develops and assesses the fundamental skills of instrument flight, including basic attitude instrument flying, procedures, navigation systems, and instrument flight rules. Includes compliance with Federal Aviation Administration flight hour and certification requirements.

Course learning outcomes

1. Perform basic instrument pilot flight maneuvers as defined by the Federal Aviation Administration Airplane Airman Certification Standards to an instrument pilot standard.
2. Summarize Federal Aviation Administration Airplane Airman Certification Standards to an instrument pilot standards.
3. Apply aeronautical decision-making skills (risk management, situational awareness, and single pilot resource management) to real-time flight scenarios.

Content outline

- Flight maneuvers
- Systems operation
- Communications
- Performance and limitations
- Regulations

[Please see the entrance requirements in the program catalog page for associated course costs.](#)

Required materials

1. Aviators headset
2. Navigation kit
3. Federal Aviation Regulations and Aeronautical Information Manual
4. Federal Aviation Administration Private Pilot Airplane Airman Certification Standards
