

# DSGN 257 : METAL ARTS: PRODUCTION

---

## Transcript title

Metal Arts: Production

## Credits

3

## Grading mode

Standard letter grades

## Total contact hours

60

## Other hours

60

## Prerequisites

ART 158B1.

## Course Description

Introduces tools and techniques for creating multiple metal objects using production processes. Repeatable for credit.

## Course learning outcomes

1. Understand how to properly source materials for production.
2. Implement production techniques and processes for designing and creating multiple metal objects.
3. Identify and problem-solve production defects.
4. Use media-specific terminology to receive and provide feedback.

## Content outline

1. Sourcing materials for production
2. Metal working production techniques and processes
3. Quality assurance during production processes
4. Create multiples of metal objects using production processes
5. Constructive critiques: giving and giving feedback between instructor and classmates

## Required materials

Students will need to provide specific materials used in this course, please see the syllabus for a detailed list.
