Course Description

Introduces fundamental theories of interpretation and active and passive techniques of interpretation including: activities, presentations, signage, brochures and information kiosks. Course allows optional certification as an interpreter.

Course learning outcomes

1. Explain a working definition of interpretation.
2. Discuss the history, principles, and philosophy of interpretation as it is practiced in natural resource settings (forests and parks), cultural settings (museums and historical sites), or a variety of other settings (grasslands, nature centers, zoos, arboretums, aquariums, classrooms, etcetera).
3. Describe the basics of visitor evaluation.
4. Illustrate skills in interpretive research and oral presentation development.
5. Demonstrate ability to develop interpretive themes, goals, and objectives.
6. Demonstrate competency in delivering a thematic oral presentation.
7. Relate knowledgably the issues of, opportunities in, and challenges facing the interpretive profession.
