Prerequisites

admission to the nursing program, Certified Nursing Assistant status, and department approval.

Course Description

Provides an opportunity for nursing students who also possess their CNA license to obtain college credit while providing direct patient care in acute or long-term care facility. Other nursing related healthcare work experience may also be eligible at the discretion of the instructor. A maximum of 1 credit may be awarded per term for each of the 6 terms of the AAS nursing program. P/NP grading. Repeatable for credit.

Course learning outcomes

1. Engage in a clinical experience that builds on nursing knowledge and skills previously attained and practiced in the students' course of study.
2. Apply clinical and professional communication concepts in the care of patients from diverse backgrounds in various health care settings.
3. Enhance the development of professional skills through critical thinking, collaboration, time management, and prioritization appropriate for the clinical setting.

Content outline

1. [Review of professional portfolio including job description, level and variety of tasks, skills performed, and description of healthcare environment.](#)
2. [Submission of formal reflection on how work experience will supports the student's learning and professional goals.](#)

Required materials

None.
