PSY201Z or PSY202Z.

Course Description

Introduces students to the field of psychology and possible pathways for those interested in the major or applications of the major. Engage in significant career and educational planning while exploring career options for psychology minors, majors with a bachelor's degree, and career options for individuals after graduate school (e.g., Masters, PhD, PsyD, etc.).

Course learning outcomes

1. Develop a broad understanding of the opportunities for those studying psychology.
2. Research a career path based on interests.
3. Identify the demonstrable skills developed through training in psychological sciences that can be applied to a variety of careers.
