

MATHEMATICS - ASSOCIATE OF ARTS OREGON TRANSFER (AAOT)

Description

The study of mathematics develops analytic and quantitative skills, which are valuable in today's data-driven economy. The Associate of Arts Oregon Transfer with a focus in mathematics includes courses commonly required for a math major and meets lower-division general education requirements at all Oregon public universities.

A bachelor's degree with a major in math is great preparation for graduate school (such as schools of law, medicine, education, or business) and direct employment in industry, government, research, and business.

Statewide General Education Student Learning Outcomes

Please see the [General Education page](#) for statewide general education student learning outcomes.
